TV Zemědělec is an internet platform designed for creating and screening newscast and specialised agricultural programmes.

An audiovisual presentation is one of the best educational methods.

Connecting a picture with a sound enables to present a product, its benefits, convey a story, build a brand image or to sell directly.

TV Zemědělec is a persuasive medium which, using audiovisual communication, can enhance positive emotions and create an association with the brand.

TV Zemědělec programmes focus on: agricultural policy, plant production, animal production, agricultural machinery and renewable sources of energy.

Thanks to an interactive technological platform users of all the devices available (PC, phone, tablet) can be targeted.

AGRICULTURAL TV NEWS

Brings up-to-date home and international agricultural information on weekdays

Duration: 3–5 minutes

ATVN partnership possibility:

Placement of a logo in the news every minute for 10 seconds
