WASTE

The Waste magazine is intended for all companies specializing in waste management and those dealing with or creating waste. Subscribers of the magazine are also state and public servants as well as large companies that produce industrial or construction waste. It has been published for thirty-one years and is distributed mainly via subscription.

On a monthly basis, it informs about the situation in waste management and in the concerned subjects, about new trends, experiences, technologies and technical systems in CR and abroad, and about environmental protection. The regular sections offer analyses and comments regarding legislation, discussions and practical experiences, as well as a current events overview. It also covers various, related and new areas, such as environmental management systems, IPPC or information technologies. A large section is also devoted to the waste problems in public administration.

The magazine is stitch-bound, printed on quality glossy paper and contains 44 pages on average.
