

2nd and 3rd of March 2023, 10 AM

AGRALL SHOW 2023 – OPEN DAYS

Please accept our sincere invitation for **AGRALL Open Days 2023!**

You can look forward to a packed programme of new products, with thematic stands and workshops. The main topic of the workshops will be tractors with **CMATIC** continuously variable transmission: **CLAAS AXION 870** with **CEMIS 1200 & CTIC** with the **CEMOS system**, which assists the drivers in delivering their best performance. On top of that, the **CLAAS ARION 660 edition Le Mans** will be an absolute novelty. This special limited version of the **ARION** tractor will be introduced by one of the most capable drivers and believe he will have much to say about the place where the tractors have been manufactured - **Le Mans**. This driver will also give you a ride on a polygon.

Furthermore, we're preparing a stand for forage harvesters **CLAAS JAGUAR** equipped with the **NIR Sensor technology** and stands for the all-new **CLAAS VARIANT 500** baler and **CLAAS TORION 535** loader. **CLAAS LEXION** combine harvesters will be presented in many versions of straw walker and rotor model series.

In their own workshop, **Väderstad** will for the first time in the Czech Republic introduce the **Proceed concept** as well as their all-new **Carrier 725 XL**. An essential part of the programme will further be the **XERION** tractors in the ideal combination of the extension and **KAWECO slurry tanker**.

To enjoy your experience with our technology as much as possible, we're also providing refreshments on every stand and workshop throughout the whole day. And for **E-sport** fans our **AGRALL FSL team**, a participant in the Farming Simulator League, will also be introduced!

We look forward to seeing you on the 2nd and 3rd of March, every time from 10 AM in Bantice. **You will not be bored!**
